**SANDRINGHAM**
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."
From Messrs. Patrick Mahon, funr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

A las 2 en punto de la tarde,
Remataremos, a la mas alta postura y pasando la base arriba fijada, por orden terminante de su propietario.
Esta hermosa casa-quinta, compuesto el edificio alto de una sala, tres dormitorios, tres cuartos de vestir, comedor y ante-comedor, cocina, cuarto para baño, inodoro, dos galerias cerradas por cristales, cielos rasos de madera y techos de baldosas y pizarra, el edificio bajo con igual numero de habitaciones; el frente pintado al fresco, tiene ademas dos cocheros, caballeriza para dos caballos, jardin, glorieta y una estensa quinta poblada de esquisitos arboles frutales y de adornos.
El terreno todo se compone de 9000 varas cuadradas.
Como se ve la casa ofrece las mejores comodidades para una estensa familia y contiene todo lo que pueda pedirse para una casa de campo y para estacion de verano, en uno de los mas pintorescos pueblos de los alrededores de la ciudad.
Facilmente se comprende por las esplicaciones que anteceden que esta casa tiene mayor valor del que se ha fijado para la venta, pero deseando el propietario venderla, ha querido que los interesados atprecien en lo que realmente vale y esa es la razon de haberle puesto el infimo precio de $120,000 para la venta

Dewsbury, July 1st, 1881.
Sir,
Last night or early this morning our offices in Bradford Road, Dewsbury, were entered by Burglars and Robbers, and our Safe of your make, No. 3831, and "201 B," was wrenched from its place into the middle of the office floor, and the Caps or Covers of the Door Hinges, top and bottom broken to pieces, but we are glad to say without getting the Safe door open. UPWARDS OF £1000 was in it.

## THE NEW SEASON.

The accounts from the provinces are more favourable and, although in some parts the wheat crop has suffered from excessive rain and worms, there are many districts where, according to the letters at hand yesterday morning, the wheat crop never looked better. If the weather take up now, we shall, in the opinion of the Rosario people, have a greater wheat crop than ever before known in the Plate; whilst at many of the mills in Santa Fe there is still such a stock of flour that it must be exported, as the only market for it is Rio or Santos. The wheat crop of 1880-81, which at the time was thought deficient, has proved far in excess of the consumption; yet, according to every reliable version, the wheat crop this year promises, notwithstanding the great rains, to be far and away superior in quality. Whilst the flax crop, which is now a new item in our exports, has suffered in nothing from the weather and will excel immensely every other cereal crop in the Plate. New machinery is being introduced to utilize the fibre of the flax which, when it comes into general use, will give increased value to the crop The agricultural prospects of the Plate this season are much more promising than what many expected.
Our wool clip, it is estimated, will reach 240,000 bales, which will be an increase over last clip of, say 20,000 bales, and wools coming to market in anything approaching good condition will find ready purchasers at or about 90. What is very remarkable about the wool business this season is the constant arrival of old lots from the camp every morning, which shows that a much larger quantity of wool has been kept outside than imagined, and the farmers are now hurrying the old wool into market in order to make room for the new.
The increase in the flocks this year is estimated at 30 per cent, and, if the flocks in the South have not suffered heavily by the recent inundations, the stock of sheep in the Plate must now reach close on eighty millions.
The prospects of the saladero season for this province were never better; the great number of new estancias started within the last year or two has relieved the inside camps of hacienda, and the cattle on the outside camps are doing splendidly. Estancieros must be content with 300 to $350 for their novillos, and on this basis the saladeristas will probably kill more this season than in any previous year; the camps are splendid, grass superabundant, and the cattle in another month will be very fat.
Upon the whole the prospects of the new season are excellent, and the volume of produce to come on the market will probably exceed that of any other River Plate season.

## PATAGONES.

The Government is trying to found a new town south of Rio Negro, in the bay of San Antonio. The bay is a good one, but the hitch is fresh water, and the following correspondence from Patagonia, where the preparations are being actively carried on in San Antonio, with a view to find water, will interest our readers:—

Viedma, Oct. 5, 1881.

The expedition managed by Governor Alvaro Barros has just returned from San Antonio, and I herewith send you some details. The technical part of the expedition was entrusted to Lieut. Colonel Wysocki and some officers. In the beginning of September they started from Ira Angostura, taking in three bullock-carts the necessary perforating machinery and a condenser for salt water. Provisions and mares were also taken. In order to meet any unexpected emergency, five barrels of water were included in the baggage.
The heat and mountainous character of the territory made the journey during the first days very tedious and tiring to the animals. No water could be got from the lagunas alongside, and the advices of the 'baqueanos' were not at all reassuring. Half the water was already consumed by the party, and despair seemed to overwhelm all when a storm shower saved the expedition from failure and more transcendental disasters.
The lagunas were filled, and on the 17th September the party arrived on the sea-coast in front of San Antonio. Immediately a suitable spot was looked for and chosen for the establishment of the condensing apparatus, in case water should get scarce and the rains cease. Fortunately the wet weather continued and the machinery of the condensing apparatus was not overtasked.
After much study Wysocki selected the best spot for the perforators, and the artesian well was begun two leagues from the harbour. It appears that at a less distance it would be impossible to get fresh water. At least so it would appear from the surveys made by the officers of the Vigilante on a former occasion last year. Their results were unsatisfactory, and any further analogous attempts would have been useless.
The perforators worked day and night, and after eight days reached 35 metres depth; already there were evident signs of water a few metres deeper. The hard cakes of earth gave much trouble.
The Governor, therefore, returned leaving the work to Wysocki and 10 peons, providing them with victuals for a month, the time necessary to finish the well. The Cabo de Hornos also arrived at the time with the expedition to San Antonio, and there it remains to give help until the works are complete.
The distance between Viedma and San Antonio, measured by Wysocki, is 174 kilometers and five leagues. The intervening camps are splendid for cattle-grazing, if wells were established; water can be easily obtained in them at less than 30 metres depth, Cereals would also flourish, if sown in the rainy season.
Naturally the primordial necessity at present is a good road between this place and San Antonio, before the camps can be turned to account. For want of further details, I must here finish my letter. If water be found, I will send telegram.

October, 10th, 1881

Lieut. Col. Wysocki has arrived and leaves in the Villarino. The San Antonio perforators reach 50 meters; hopes are few of finding water at a small depth. The perforations will be continued to a 100 metres; there is piping for 110 metres. The Bahia Blanca will replace the Cabo de Hornos in San Antonio. The Rio Negro and Limay expedition leaves to-morrow for the Nahuel-Huapi. Colonel Obligado thinks that with the present high water, he will be able to steam up to the famous lake. In such an event the little steamer Rio Negro will be the first craft that ever troubled; the placid waters of Nahuel-Huapi.

## THE MAYPU'S VOYAGE.

At three o'clock on Thursday afternoon this new torpedo boat for the Argentine Navy was sighted from the Capitania. At first neither the Port Captain nor the Minister of War could make 'head or tail' of the novel craft, but she was soon recognised as the Maypu, with the torpe to launch Py in tow. At 3½ p.m. they anchored in the Pozos. Almost before the new arrivals had swung round boats full of people put off from the shore to have a look at them, and the beach was lined with gazers. About 4 o'clock the Commander-General of the Navy, the Naval Commissary-General and the Port Captain put off in the steam tender Victorica for the Maypu. On reaching her deck they were cordially received by her Commander, Lieut.-Colonel Ramirez; her first 'luff' is Lieutenant Barilari, who served his apprenticeship in the Italian navy with distinction. Lieutenant Garcia Mansilla, who has served in the French navy and wears the Cross of the Legion of Honour, is in charge of the torpedo department. The other officers of the Maypu are Lieutenants Lancano, Lan and Rivera, and Dn. Rafael Campos as mechanical engineer.

The Maypu left London on July 4th and arrived at 'the Rock' on 12th, and at Marseilles on 18th. While crossing the Gulf she had very bad weather: the tow-rope to the Py broke three times, and one stormy night they lost sight of the launch and had to lower a boat in the raging sea to look for her: for tunately they picked her up and got her in tow again. At Marseilles Lieutenants Lascano, Lan and Rivera, who were serving in the French navy, joined her.

From Marseilles the Maipu sailed for Fiume and arrived there on July 21st and on the very same day the torpedo experiments commenced in the presence of a Danish Commodore, the commander of H.M.S. Hecla, (torpedo boat), two Italian officers, two Austrian, two Greek, a French torpedist, a Russian ditto, and several other officers. Two torpedoes were discharged from the port tube, two from the starboard, and two from the bow: the starboard tube worked best. The spectators gave hearty cheers at the conclusion of the experiment. Colonel Ramirez was warmly congratulated by all the foreign officers present.

The Maipu left Fiume on August 28th, but had to put into Palermo owing to stress of weather. On the 4th September she again anchored at Gibraltar, where the Argentine Consul, Sr Imossi, gave a grand banquet to the officers. On the 15th of September the Maipu left Gibraltar on her voyage across the Atlantic. Saint Vincent was reached on the 24th, and Rio de Janeyro on October 12th. During the run from Saint Vincent to Rio the tow rope parted twice. On the 15th she left Rio, and anchored here on 20th at 3½ p.m. The tow rope parted three times between Rio and this port. The Py was let loose on her own account off Point Indio, but kept her larger consort company till they anchored.

The Maipu draws 10 English feet, with a displacement of 1160; she is a paddle wheel, being intended for the coast and rivers. Her speed is 14 knots per hour. She has a small steel spur and two torpedo tubes at her bow, two astern also: the mouths of the tubes are a metre over the water line. She carries 12 Whitehead torpedoes on board. Her crew, officers and men all told, numbers 83. A Gramme electric machine lights the vessel as brilliantly as 6000 candles would: there is a Mannier reflector attached The Py steams 20 miles an hour. Neither vessel looks like a fighting one, both being of such light and handsome construction.

## EDITOR'S TABLE.

There was no fresh news from Chile up to our press hour. Our countryman, Senator McKenna, made a splendid speech in favour of the Treaty.

This is the country of sudden changes. Only two days ago we gave the news of the first lightship on the Southern coast having been successfully moored off Bahia Blanca and buoys laid down in the entrance channel. The first news in town yesterday was that a furious hurricane had sent the light-ship to 'David Jones's locker,' and the buoys, excepting one, to the South Pole, to await Lieutenant Bove's arrival. Two Indians of the crew of the wrecked light-ship were drowned, but the remaining nine were saved by the boats of the gunboat Bermejo. The oldest inhabitant down there does not remember such a furious storm.

Nothing fresh about Colonel Latorre yesterday, but there are evident signs of uneasiness in the sister city, and many leading families are coming up here till politics look more pleasant down there. Amongst them is Dr. Sagastume, ex-Oriental Minister to Rio,

The 'Corps Speculatif' seem bent on imitating the corner in 'Holy Joes' in Wall-street. Nearly 15,000 National Bank Shares b ught and sold yesterday on the Bolsa before 2 o'clock. 'Sonny, never sell what you haven't got' (*Vanderbilt on Bearing.*)

'Girofle-Girofla' was given at Colon on Thursday night, and although it was the first time that the troupe gave this piece it did not attract a large audience; and, as is usually the case on such occasions, neither fiddlers, actresses or actors seemed to work 'con amore.' The principal event of the evening was the second act of 'Le Grande Duchesse,' where Mdlle. Paola Marié, most gorgeous ly dressed, and displaying a fortune of diamends, sang the well-known 'Dites lui,' which was very enthusiastically applauded by the house. Paola Marié acquitted herself so admirably that we never remember her to have sung and acted so faultlessly; and as for Fritz, he proved himself so inaccessible to the appeals of love and beauty, that we fairly doubt whether he is of flesh and blood like other mortals: Heis evidently *not* an Irishman.

'To what base uses we may return, Horatio!' Hughenden Manor, the residence of the late Lord Beaconsfield, now the residence of Mrs. Isaacson (the world renowned London milliner, Madame Elise). The London papers say the historic place was very hard to let, and was advertized for weeks before the milliner took it, most probably as an advertizement.

The 'society' papers in London recommend 'savon á l'Ixora-Breoni' as the 'ne plus ultra' of fashionable toilet requisites. A small carpet-bag is necessary to carry the big name of this wonderful soap, which, we suppose, is to be had at Cranwell's, Seedorff's, Kelly's, Murray's, or Jones's.

The courteous Secretary of the Society for the Prevention of Cruelty to Animals was kind enough to send us yesterday Blue Books containing the rules and regulations of the society. Every Britisher and American citizen in town should join it, and help to put a stop to the revolting cruelty openly practised on horses, dogs, indeed all the brute creation, in this city. We call the society's attention, for their first effort, to the barbarous system of slaughtering cattle at the Corrales, so graphically described some days ago by our colleague, *El Diario*. It is awful. Worse even than the treatment of horses.

Another expedition is being organised in Santiago del Estero, to search for the tamous Chaco aerolite, an article almost as celebrated as the *Standard* barometer, or the defunct Hole in the Mole. In case the aerolate be found it will be sent to the Continental Exhibition, which, considering that it is supposed to be as big as the Rocks of Taudil and Cashel, put together is rather a rash feat for Santiago to attempt.

The Portuguese papers say that the King of that country and his heir apparent will soon pay a visit to Brazil and the River Plate. His Majesty and his son will be heartily welcome. We hope the illustrious visitors will come while the Exhibition is open.

There will be grand doings at the Recoleta Cemetery on All Souls Day—2d prox. The new chapel there will be consecrated by the Archbishop, the President of the Republic and Mrs Roca being the 'padrinos.' Father Jordan S.I. will deliver the oration on the solemn occasion.

At the Politeama on Wednesday night Miss Jenny, on her mare Varsovienne was announced to jump over a supper table laid for 16 people. The mare refused and went smash into the middle of a plum pudding and a Limerick ham. She was put at it again and succeeded in slobbering over the table, but in a way that did her jumping powers no credit.

H. R. Highness the Prince of Wales has the reputation of being the readiest hand in his future dominions at a neat, complimentary repartee. Dr Pasteur, the famous French physician, was introduced to the Prince at the recent Medical Conference in London, and, in reply to His Royal Highness's first remark said:—'Je suis hereux, Monseigneur, de saluer en vous un ami de la France,' on which the Heir Apparent at once answered: 'Vous avez raison, Monsieur Pasteur, et vous pouvez dire un *grand* ami.'

The Municipality is pestered with applications to farm the Lottery which Congress has sanctioned in this city. How is it that Markets, Lotteries, in fact everything in which the public can best be 'squeezed' must be farmed here? Why not pay officials responsible to Government to manage them, instead of allowing middlemen to make a huge profit. Middlemen brought on the present land crisis in Ireland.

As the Gun Club have now finished their season, they will commence to-morrow shooting for the annual prizes, which this year are indeed worth burning the best of powder for. After shooting for the customary gold medal, they begin at 12.30 to contest the grand prize, which is to be the best gun that can be bought for money, at 30 birds each. There are 3 prizes in this sweepstakes; the second will secure a solid silver cup of beautiful design, and the third a massive gold ring. On the 30th there will be 4 or 5 valuable prizes contested for. We hope our countrymen will make a good fight of it

The works of the Exhibition Building in Plaza Once are going ahead fast enough, but candour forces us to confess that the building gives promise of being the most hideously ugly structure that ever mortal optic rested on. The wooden framework of the building is having zinc plates nailed on to it, by way of walls we suppose. Independent of the bad effect on the eye, the place will be like an oven for those inside. It's the funniest idea we have heard of yet, and enough to drive an aesthate raving mad. Zinc! Julius Cæsar!

The Admiral Brown anchored at Montevideo yesterday. General Santos went off to her with the health officer, and crowds lined the shore, gazing at the splendid ship.

The Census Commissioners have now published the result of 19 partidos of partidos of the province: It shows 67,828 souls in 1869 against 101,694 in 1881. The increase in Lomas is over 149 per cent. Bravo! old Lomas.

The family Girard continue to attract great attention and admiration at the Politeama and remind one of the Vokes family, who used to dance in the same style in the X'mas ballets, this family subsecuently; emigrated to America, where they were enthusiastically received. We notice with pleasure that the sisters Corini have ceased to make those revolting exhibitions of the strength of their teeth and jaws and devote themselves now to graceful trapeze evolutions which are much admired and applauded. The Politeama fills tolerably well and will continue to be a success, if the lessee introdue novelties.

Some 2 or 3 years ago it was our painful duty to record the disappearance of Richard King, manager of the Old Hampshire Bank at Ventnor, Isle of Wight, from adverse circumstances. We have now much pleasure in stating, that this gentleman has been most fortunate in his speculations in this prosperous country, and that all his honorable debts will be paid with interest when forwarded to his Worship the Mayor of Southampton, who, we believe, is some relative of Mr R King. This is indeed a good example to all Englishmen.

Her Majesty's new Minister Plenipotentiary, the Honble G. G. Petre, visited the Irish Convent yesterday. He was graciously received by Mrs Fitzgerald, the Superioress, and conducted through the establishment, which caused him the most agreeable surprise which he frequently expressed to Mrs Fitzgerald. The neatness, cleanliness and model order in the schools and every part of the institution attracted His Excellency's special attention, and he warmly complimented the Mother Superioress thereon. The Convent gardens are in beautiful order and look charming. There are 120 children (mostly Italians) in the Poor School, 80 orphans, and 50 young ladies in the high school. The children sang several hymns in a very pleasing manner, and a pretty little orphan girl read a nice address to the Minister in English. It was quite a gala day at the Irish Convent, being the first time, we believe, that a British Minister Plenipotentiary has formally visited it. The Convent, in Mrs Fitzgerald's hands, has become a high credit to the British Community of the Plate.

Dr Clausolles fell in Calle Parque on Thursday and broke his left arm. Dr Peacan set the fractured limb, and we are glad to hear that his patient is doing well.

It is said that Dr Luis Saenz Peña will be appointed to the seat vacated in the Supreme Court of the Province by Dr Victor Martinez.

Dante's house in Florence has been put up to auction (upset price £1200) by a banker who got it from the Municipality of that city as part payment of a debt. The banker has no poetry in his soul, or he would buy the historic dwelling. Few bankers are much good at 'Juegos Florales.'

## SUNDAY TRADING.

Altamira, Mercedes, B. Aires,
October 18, 1881.

Dear Mr. Mulhall,

I am sorry your Committee went back of their first resolution. It would have given tone to the Administration. As the business stands now it is neither fish, nor flesh, nor good red herring.

Observe the heading—I use 'Sunday Trading;' I prefer it to Sunday 'closing.' Trading or traffic is the spirit: closing is the letter. If we keep the spirit the *rest* would follow.

However, a beginning has been made, and, as an instalment, may be accepted. It is necessary to educate a people to obey the law. One of my first phrases in Spanish was this—'Cuando no se puede lograr lo que deseamos, debemos contentarnos con lo que tenemos,' and I can apply it now.

Wonders wont cease evidently in our time. Here in Mercedes the employers and employed have agreed to shut up shops after 4 p.m., and actually petition the Municipality to have it sanctioned by their mandate.

Ever yours truly,
*Nicholas Lowe.*

## ON 'CHANGE.

Oct. 21st.

| | |
|---|---|
| Patacons | 25.45 |
| Cedulas A | 98⅝ |
| National Bank Shares | 124⅛ |

This was another brisk day on Change, but as usual all the speculation has gone into Bank Shares, and as the sales for the last week reach to more than the whole capital of the Bank, a syndicate is being made to form a pool for 30,000 shares, and corner the bears. That it may succeed if the bulls get the money, all must admit, but we have our doubts; nevertheless all the Italians in the market were busy with the *Standard* this morning, reading about the corner made in New York in the Hannibal and St. Joseph Railway, and they will try the same business here if they can "pool" the National Bank Shares. New and strong men entered the market to-day to buy the shares, and they say that some 400,000 Cedulas have been got together and are being sold to pay for National Bank Shares. An American gentleman has handed us the following extract from a New York paper about the New York corner:—

"There was much excitement on the 'Street' yesterday over the extraordinary rise in the stock of the Hannibal & St. Joseph R.R. Last April this stock was selling at 57½. Yesterday morning it opened at 96½ and closed at 135 bid and 150 asked. Only 2000 shares were sold. One party bought 100 shares at 121 and five minutes later had to pay 132 for 100 shares. The advance is explained by the report that a pool was formed three we ks ago, which now owns 90,000 shares out of a total issue of 100,000, There is said to be a short interest of 32,000 shares, of which 16,000 are in Boston. Several prominent dealers in New York are reported short, and one of them for 7,000 shares and another for 6,000 shares."

Gold rules weak, and as the Chilian scare is over the market looks downward. The Provincial 20,000,000 loan we hear could not be done in London last week, that is to say launched, owing to the nervousness about the Chilian question; gold opened and held eash at 25.45, only 21,900 sold cash, sales for Jan. at 25.45; total day's sales 508,900.

Cedulas opened cash at 98⅝ and dropped to 98½. For end of month sales made at 98⅝ and for Nov. at 98⅝, market weak owing to large amounts offering.

Nat. Bank shares very firm and new outsiders buying, the sales cash 1680 shares at 124½ dropping to ½ then rising to 125 and closing at 124½. For end of month 9350 shares sold opening at 124, rising to 125 and closing at 124⅝, and for Nov. 3,900 running up to 126 and closing at 125½. Total day's sales 14,390 shares.

The sales at the ring were—
For cash 21,900 25.45
For Oct. 31st 275,000 25.45
For Nov. 30th 70,000 25.45
For Dec. 31st 127,500 25.45-50
For Jan. 31st, 1882, 15,000 25.45
Sales, 508,900.

Cedulas—
For cash A 26,000 98⅛-⅜
For Oct. 31st A 85,000 98⅜-½-⅝
For Nov. 30th A 10,000 98½
Sales, 121,000.

Nat. Bank Shares—
For cash 1,680 shares 124½-⅝-125-124½
For Oct. 31st 9,350 shares 124-½-125-124½
For Nov. 30th 3,900 shares 125½ 125-126 to 12-½
Sales, 14,930.

There was a long and animated meeting of the Municipality to-day; after much discussion the Board voted to recommend to the National Government that the future height of the houses in the city be 14 metros, exclusive of balustrades, &c., on the azoteas, which means 15 metres for the future height of the houses; a reform much called for, as the old law of 1868 in this respect is no longer suited to the city requirements.

At afterhours there was intense excitement in the Nat. Bank Share market, and prices rose to 127 for end of month. Many have a strong suspicion that a 'Joe' corner is being attempted, and as people sold shares by the hundred and thousand for end of Nov. without having a share; the stock if lifted off the market at present rates will give splendid profits. It remains to be seen how they will pull through for the end of the month.

Cedulas are neglected; some sales cash at afterhours at 98⅛. Gold rules weak cash, and 5 cents stronger on time; many buyers on long dates.

The wool market this morning showed a fall on the opening prices of the season, and the same wool sold ten days ago at 93 only fetches to-day 86. Our advices from the camp are favorable, shearing going on every where.

Mr C Hunter, of Paysandu, was welcomed on Change; he reports the tinned meat shipped by his fabrica Stevenson & Co. last year amounted to 110,000 tins 2½ lbs. each and of these but 18 tins proved detective. At one of the largest saladeros on the Uruguay the tongues sold in the Corrales at 20 pats per 100; formerly they counted for nothing, now they yield the saladerista 17,000 pats per annum.

There was nothing from London to-day and they say it takes 2 or 3 days to get a telegram through.

At 5 o'clock there was tremendous excitement in the National Bank Share market, all buyers, no sellers. Two or three well known outsiders who understand the pool system have taken hold of the market. A leading Italian speculator and large holder of shares entered the Bolsa to-day; from the moment he entered the shares rose. Italian is again becoming the language on Change, and guttersnipes are picking up the shares at the exchange offices throughout the town.

Mr Sillitoe has received by the Humboldt two remarkably fine short horn young bulls for his estancia La Victoria.

The report of the Tucuman Railway says:—"The total quantity of sugar carried by this line in last year shews a very notable increase on the previous year. The weight of sugar loaded in 1879 was 2,460,342 kilograms, while in last year it rose to 6,316,011 kilograms, which shews a surplus in favor of the latter year of 3,855,669 kilograms, or in other words an increase of 260.69 per cent. Spirits of wine and woods also shew an increase, but not at all in proportion to sugar, as the first of these articles amounted in 1879 to 993,975 kilograms, and in the last year rose to 1,164,146 kilograms; and the second article reach s to 3,385,393 kilograms in the last year, while the previous year it only amounted to 3,110,255 kilograms."

The following has been sent us for publication explanatory of the Hungarian Bonds being reduced from 6 o/o to 4 o/o:—

"The *Continental Correspondence* of Vienna of the 10th inst. contains the following account of the progress of Hungarian credit 'a propos' of the arrangement for converting the Rente which has just been agreed to;—

"One of the most important transactions in Austrian financing has now been concluded. The 6 o/o Hungarian Gold Rente, which was issued at the time of Hungary's greatest financial want, has been converted into one at 4 o/o. Hungary makes thus the attempt to attain at one bound the same credit on the money market a the States of Western Europe. The future will show whether these anticipations are justified In 1876 the first 40 million florins of this Rente were issued at the rate of 91.10 o/o in paper; in 1877, further 31.9 millions at the same price; in 1878, 146.7 millions, at 84.57 in paper; in 1879, 143.3 million florins, at 83.86; and finally, in the same year, further 2.59 millions, at 88.21. For these amounts the average price was 85.75. This need only be compared with the London quotation of 99.18 on the 8th to show the total change which has taken place in the credit of Hungary. The nominal amount converted is 40 million pounds sterling, approximately 405 million gold florins. The profit accruing to the Hungarian Treasury from this operation will amount yearly to about two million gold florins."

The London *Times* gives the following further particulars about the wonderful corner made on the New York Stock Exchange last month, the history of which we gave in our last issue:—

"The statement is made by a gentleman familiar with the pool that the buying of the stock began as much as 6 months ago, at first as an investment and witnout any idea of making a speculative venture. But they afterwards found that some one was making a bear movement in the stock, as it was freely offered in the market, and this went on when they actually had nearly the 30,000 shares in possession. They bought all that the bears offered and awaited developments, ultimately determining to make the corner when they found that it was the big fellows they were dealing with, and that they could afford to pay. When they had got about 60,000 shares bought short, the sellers found them out, and the squeeze came. The bears were able to deliver about 5,000 shares, but the pool expected to make, probably, $3,000,000 on the operation. This money the plunder d side can, of course, part with without much trouble, for they are all wealthy, and this feature of the corner will be closed up with the successful speculators rejoicing at their good fortune. But this is not the end. They have got about 95,000 shares of a stock that is not intrinsically worth very much, and which they cannot in the present state of the market put off on the public. They have caught some of the big Wal-street operators napping; and these gentlemen are not used to such treatment. They prefer to do the fleecing themselves. Milking Jay Gould, Russell, Sage, and Co. to the extent of a few millions does not hurt their fortunes as much as it does their prestige, and they will not soon forget it. Some of these days the organizers of this St. Joe corner will wake up and make, as all of us do occasionally, some surprising discoveries."

On the Stock Exchange, Liverpool, there was a scene last month caused by a woman going on Change and giving the cotton brokers a piece of her mind; the following is given in the Liverpool papers:—

"The cotton corner at Liverpool shows no change in its bearings; In spite of the stoppage of mills by the spinners, prices have been but little affected, and remain steady, although the quantity of business done is largely reduced. The outlook is not very promising, for it is expected in many quarters that the stoppage of the mills will not be the temporary matter which spinners have seem-d to anticipate, but that short time, if not total closing, will have to be enforced during October. The reason for this is the glutted state of the markets for manufactured cottons Spinners are being subjected to a good deal of chaff on the Liverpool Exchange. When the stoppage was first spoken of, the ground taken up by the spinners was one which bore the appearance of moral indignation against an unholy combination on the part of the Liverpool brokers. They are now charged with having very astutely concealed the fact that short time was really forced upon them by the overstocked condition of the markets, and with having shifted to the shoulders of Liverpool brokers the responsibility of the stoppage in the eyes of the operatives. An amusing instance of this was afforded on Monday on the Exchange flags at Liverpool. During the course of the day the assembled brokers were startled by the appearance of a woman dressed in a short robe and gaily-coloured shawl, familiar throughout East Lancashire as the distinctive attire of the factory operative. The rumour soon spread that the woman was one of the mill hands thrown out of employment by the action of the spinners, and this proved to be the fact, for presently the stranger, having by her defiant demeanour rendered herself a centre of observation, presently broke out into reproaches and objurgations characterised by equal fluency and vigour of language. She brought her denunciations to a climax by shouting, 'My curse upon you all for your handiwork', after which she quietly retired, having at all events enjoyed the satisfaction of arresting all the business of the Exchange for several minutes, even if no further results attended her efforts."

Messrs. Oostendorp & Co., under date Sept. 17th, report the following:—

Hides—
A quieter tone has set in during last fortnight, but previous prices are maintained.

Dry Horse Hides—
Are in some request.

Floating cargoes—
The sales in England are—
4,000 B. Aires saladero ox, 65½ lbs., Luro, and 2,415 do, 70 l/5 lbs., Rocca, expected per Cathrina, April to May slaughter, at 7½d tare 6 lbs for heavy, and 7½d tare 5 lbs. for light ox, for Antwerp.

In Liverpool several cargoes are landing and about 4,000 hides have lately been sold mostly on private terms; extra heavy, Casa Blanca and Guaviyu, ox were paid 7½d tare 8 lbs. ex quay. Salted horse hides are dull.

Leather—
At the Bristol and Leed's fairs held on 7th Sept. transactions were limited but the market was steady.

At the Frankfort fair, which bezan on 12th inst., supplies were moderate; cow leather was enquired for, whereas ox was neglected.

Wool—
Imports, 2,300 bales R. Plate.
Sales—
1,100 bales R. Plate
300 bales miscellaneous.
Stock, 24,100 bales B. Aires
6,400 bales Montevideo
46 bales Entre Rios
5,100 bales miscellaneous.

Some sales take daily place, but the tone of the market is quieter, and an advance on last auctions' quotations is only exceptionally obtained.

Importers decided yesterday that our next public sales would begin between the 3rd and 8th Nov., according to importance of quantities which will be declared on 22nd Oct.

Quotations for B. Aires invoices averaging à 1, viz:—
F. 1.85-1.95 for superior wools, 35-36 o/o
F. 1.60-1.70 for good to fair, 32-34 o/o
F. 1.45-1.50 for good average, 30 o/o
F. 1.30-1.40 for good average lambs', 30 o/o
Fair Montevideo shipments averaging a 2d, 40 o/o yield, are worth about f.1.80 to f.1.90
Scoured wools stand in at fs.4.35-fs.5 for fair, fs.5.10 to fs.5.25 for good, and fs.5.40 to 40c. for superior 1st [washing and all expenses excluded].

The Toronto *Monetary Times* has the following on wool growing in Canada:—

"The growth and development of the woolen manufacturing industry in Canada is shown by the increased quantity of wool brought into the Dominion from abroad. It is not less deserving of notice, at the same time, that our exports of wool have declined greatly. The reason of this decline is not, unhappily, that we have been using our own growth of wool to a larger extent.

"This Province is left at the incoming of the new clip with a surplus, we are told by well-informed dealers' of 400,000 to 500,000 lbs of last year's on hand. Sales have not sufficed to clear off the accumulation of Canadian grown wool, to say nothing of the new clip, which must thus be largely superfluous. It is true that the large factories are all working full time, some of them over-time; but they are using foreign wools, and the depressed condition of the market for the home article is the best testimony that domestic is not wanted, and that a change is urgently needed at the hands of our growers.

"The value of free wool imported into Canada during the fiscal year 1878/79 was $841,173. In the year 1879/80 it was $1,684,161 for free wool and $3,056 for about 25,000 lbs. lustre wools, which pay a duty of 3 cts per lb. The total quantities imported in the two years were 4,976,768 lbs. in 1879, as against 7,870,118 lb., in 1880. For the last fiscal year, ended 30th June, 1881, the imports were 5,994,050 lbs valued at $1,192,388, all free wool no lustres, while the exports were but 1,482,927 lbs. of the value of $427,939—less than half those of either of the previous years. We have procured from Ottawa the following advance figures out of the trade returns for the fiscal year 1881:—

51——SAN MARTIN——51
El Viernes 4 de Noviembre
A las 2 en punto de la darte

Venderemos por el precio que exceda de la pequeña base que se lo ha fijado y por orden terminante de su dueño.

Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.

Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, recenocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.

Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.

Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.

A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.

A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su centro la galera que va a Carhue.

Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orden del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que dilgieron por los escelentes informes que tuvo.

Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.

Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.

En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.

Los titulos son de primer orden.

Los linderos y su ubicacion los siguientes. Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 48 del mismo Gonzalez Chaves.

El cte 36 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.

NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud, y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

Mas informes a nuestra casa San Martin 51.

A large gathering was held at Dublin yesterday in order to further the proposed Exhibition of Irish Manufactures. The Lord Mayor of the city presided, and several members of Parliament took part in the proceedings. When one hon. member of the House of Commons rose to second a resolution, however, he was saluted with opprobrious cries by a knot of Land Leaguers who were present, on the ground that he had voted for the Coercion Bill, and he eventually sat down without speaking. A further disagreement arose as to the selection of members of the Executive Committee, but at last a compromise was arrived at, and the meeting broke up.

The following sketch of the proceedings is given by the Dublin correspondent of a contemporary. The misgivings which many persons felt as to the possibility of uniting all parties in a movement for the revival of Irish manufactures, or indeed, for any useful object, are fully justified by the result of the meeting this afternoon. It will be seen from the report subjoined that the project is rendered practically abortive. It has been killed by the same parties who have, in a perverse spirit, done so much to destroy the material prospects of the country and bring disgrace upon its character. The movement has been confronted at the very outset by the Land League and brought to a standstill. Other movements with the same object have failed from internal divisions, but the distintegrating process was slowly effected. Here the elements of dissension seemed from the first irreconcilable. The Land League felt no doubt that their existence was involved in the result, and that if they allowed the thoughts of the people to be engrossed with any practical measures for the promotion of honest labour, their own occupation would be gone, the country would become fearful and refuse to listen to their wild and wretched appeals. They accordingly resolved to mar the project by organised obstruction and discord, and a large number of them, led by Messrs Sexton, M.P., T P O'Connor, M. P, J G Biggar, M. P. and others took up a position in the round room of the Mansion House where the meeting was held, and, sitting in a compact body, set themselves to drive the undertaking upon their own lines and in their own way, or upset it altogether. The first sign of disunion was on the part of a trader not a Land Leaguer, who objected to having an exhibition next year on the ground that the country is still in too depressed a state. His objection was overruled. Resolutions were passed declaring that it was advisable to have an exhibition and appointing a committee, and the proceedings went on with comparative smoothness until Dr Lyons, M, P., rose to speak in seconding a resolution to the effect that an exhibition of arts and machinery suited to Irish manufacture be included. He was met with a fierce storm of opposition from the Land Leaguers, who refused to listen to him. After a scene of great confusion, in which many appeals were made to the malcontents to allow the business to go on, it was formally moved as a pacific artifice that he be not heard any more. Having seconded the resolution, which was passed, Mr Sexton then re-kindled the excitement by moving that it be an instruction to the committee not to accept any patronage, it being in the present state of the public feeling offensive and useless. Without the Land League, he said they could do nothing, while with it they would have the people at their back.

Dr Lyons, every time he essayed to speak, was met with cries of 'Coercion;' 'Who put the 200 Irishmen in gaol?' The confusion at one period became so great that there was every possibility that a hand-to-hand fight would ensue, more especially when, on a division, the Land Leaguers ranged themselves on one side of the room and the mercantile classes of the city on the other. Dr Lyons, the Liberal member for the city, seemed to be the great object of hatred. The Leaguers literally howled and yelled at him, and the Conservative element in the room did not support him. More than once he essayed to protest that he did not support coercion, but his efforts were in vain. He manfully held his position, and it was only when personal violence seemed inevitable that the Lord Mayor succeeded in inducing him to sit down. That even did not restore tranquillity, for the Land Leaguers, headed by Mr Sexton, feeling they had a large sympathetic following, were determined to show their strength, and indicate to the world that they, and they alone, represented Irish public opinion. While Dr Lyons, M.P., was receiving a severe castigation from his implacable enemies, the Land Leaguers, his colleague (Dr Brooks) in the city representation sat complacently looking on, and Mr E D Gray, member for Carlow county, vainly endeavoured to throw oil on the troubled waters. No effort, however, could control the Land Leaguers. Mr Dawson, the valient member for Carlow borough, was a prominet figure in the struggle, rushing occasionally to the front and vociferating in a voice so loud as to cause astonishment that it could come from such a small man. Mr Gill, M.P., was also in the combat, and his sympathies were clearly with his Land League friends. Had the Land League element not entered the arena, the meeting was highly representative in its character, and the mercantile portion of the community were really anxious to establish an exhibition of Irish manufactures in Dublin next year in the hope that it would stimulate Irish trade and enterprise and stay the present exciting agitation by turning the minds of the working classes in the direction of industrial pursuits. The movement has the active co-operation of his Excellency Earl Cowper, who has written a letter on the subject and subscribed £500 towards the guarantee fund. The movement is warmly espoused by the Irish railway companies, banking establishments, and mercantile firms, as well as the principal traders, who view with alarm the present state of the country, and so warmly has this project been taken up that a guarantee fund, amounting to over £17,000, has within the course of a few days been subscribed. But the scene which ensued is likely to frighten the merchants and traders of the city, and it is quite possible many of the guarantors will withdraw from the project, although Mr Dawson, M.P., told them plainly if they did so they would repent it, as, in point of fact, they would be Boycotted, a threat of alarming significance in Ireland.

## THE BRITISH HOSPITAL.

To the Editor of the *Standard*
303 Reconquista, Buenos Aires,
September 1881.

Dear Sir,

Our object in this letter is to bring before you certain facts in connection with the Buenos Aires British Hospital.

It is not necessary to tell you of the great benefit it has been to so many of our suffering fellow countrymen, but we do wish to bring before you the fact that a large number of patients for some years past have been Irishmen, and it is with this fact in our minds that we venture to make a special appeal to you for help.

For the reason that great numbers of Irishmen are engaged in business in the camp and in outside towns and make but unfrequent and uncertain visits to Buenos Aires, it has hitherto been found extremely difficult to canvass them personally and in consequence the whole cost of maintaining and keeping up the Hospital has fallen upon that section of the British Community living in or near Buenos Aires and to the South and South West of this Province.

It is true that we have certain old friends to the West and North who have not only always given us their own support, but have supplemented that support by soliciting subscriptions from their neighbours, and while most desirous to record our grateful thanks for the efforts of those friends, we cannot but see that in the lists sent in by them only a very few compartively speaking of our Irish countrymen are included, and this is we think to be ascribed to the great distances which have to be travelled in the camp in order to canvass every one.

To obviate this difficulty we have obtained the co-operation of a number of gentlemen whose names are given at foot and who have been so kind as to consent to receive subscriptions, and we earnestly hope that you will be able to give an annual subscription to the Hospital, paying it, either through the medium of one of these gentlemen or by depositing the money in the hands of the Honorary Treasurer at the British Consulate 276 Calle San Martin, Buenos Aires, on the occasion of a visit to town.

We further trust that you will help us in our work by collecting the various smaller subscriptions from those in your neighbourhood or employ and remit them to us in the same way.

It is not our intention to weary you with statistics; "The Hospital is sadly in need of funds, and a large proportion of the patients treated are Irishmen and we feel sure that we have only to acquaint you with these facts to enlist your sympathy and ensure your support.

We are, Dear Sir,
On behalf of the Committee of Management,
Your obedient servants,
*Ronald Bridgett.*
*Reginald J. Neild.*

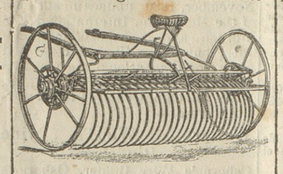
## HOWARD'S CELEBRATED MACHINES

**Howards' Self-Acting Horse Rakes.**



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extrordinary success various attempts have been made to imitate them, but J. & F. HOWARD'S simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

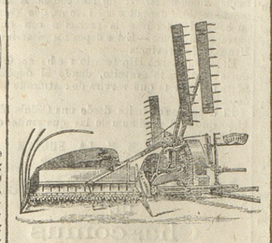
**Howard's New Patent Simplex Mower.**

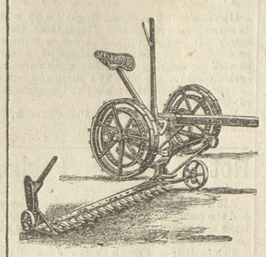


J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

*Prices in England.*

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt. £18 0 0

**Howard's New Patent Simplex Reaper**



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

## Carlow Lay College AND ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

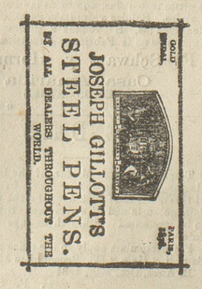
The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.



ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d, ; boxes, 6d. and 1s. each. (a)

ST. ANNE'S-ON-THE-SEA.—Superior Home and Education for young Ladies. Thorough English with modern Languages. Good Masters for Music and Painting.
